Independent Auditor's Report

The Board of Directors Surdna Foundation, Inc. New York, New York

Opinion

We have audited the financial statements of Surdna Foundation, Inc. (the Foundation), which comprise the statements of financial position as of June 30, 2021 and 2020, and the related statements of activities, functional expenses, and cash flows for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Foundation as of June 30, 2021 and 2020, and the changes in its net assets and its cash flows for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Foundation and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Foundation's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether
 due to fraud or error, and design and perform audit procedures responsive to those risks. Such
 procedures include examining, on a test basis, evidence regarding the amounts and disclosures
 in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit
 procedures that are appropriate in the circumstances, but not for the purpose of expressing
 an opinion on the effectiveness of the Foundation's internal control. Accordingly, no such
 opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant
 accounting estimates made by management, as well as evaluate the overall presentation of
 the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the
 aggregate, that raise substantial doubt about the Foundation's ability to continue as a going
 concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, s26gnificant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter

Our audits of the financial statements were conducted for the purpose of forming an opinion on those statements as a whole. The accompanying supplemental information presented on pages 24 through 43 of this report is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The supplemental information has been subjected to the auditing procedures applied in the audits of the financial statements, and to certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and to other additional procedures, in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplemental information is fairly stated in all material respects in relation to the financial statements as a whole.

Notes to Financial Statements

1. Description of the Organization

The Surdna Foundation, Inc. (the Foundation) is a family foundation established in 1917 by John E. Andrus and incorporated under the Not-for-Profit Corporation Law of the State of New York. The Foundation seeks to foster just and sustainable communities in the United States—communities guided by principles of social justice and distinguished by healthy environments, strong local economies, and thriving cultures.

Location:

2. Summary of Significant Accounting Policies

Basis of Presentation

The financial statements of the Foundation have been prepared on the accrual basis of accounting, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP). In the statements of financial position, assets are presented in order of liquidity or conversion to cash and liabilities are reflected in order of their maturity resulting in the use of cash, respectively.

Financial Statement Presentation

The classification of the Foundation's net assets and its support, revenue, and expenses is based on the existence or absence of donor-imposed restrictions. It requires that the amounts for each of two classes of net assets—net assets without donor restrictions and net assets with donor restrictions—be displayed in the statements of financial position and that the amounts of change in each of those classes of net assets be displayed in the statements of activities.

These classes are defined as follows:

Net Assets Without Donor Restrictions - This class consists of the part of net assets that is not subject to donor-imposed stipulations and are, therefore, available for the general operations of

Notes to Financial Statements

the Foundation. The net assets without donor restrictions are used to account for all resources over which the Board of Directors has discretionary control.

Net Assets with Donor Restrictions - Net assets include resources for use limited by donor-imposed time and/or purpose restrictions.

Revenues are reported as increases in net assets without donor restrictions unless use of the related assets is limited by donor-imposed restrictions. Expenses are reported as decreases in net assets without donor restrictions. Gains and losses on investments and other assets or liabilities are reported as increases or decreases in net assets without donor restrictions unless their use is restricted by explicit donor stipulation or by law. Expirations of donor restrictions on the net assets (i.e., the donor-stipulated purpose has been fulfilled and/or the stipulated time period has elapsed) are reported as reclassifications between the applicable classes of net assets.

For the years ended June 30, 2021 and 2020, all net assets are without donor restrictions.

Cash and Cash Equivalents

The Foundation considers all cash and highly liquid debt instruments purchased with an original maturity of three months or less at time of purchase to be cash equivalents.

Investments at Fair Value

Financial instruments are carried at fair value. The Foundation adopted Accounting Standards Codification (ASC) 820, Fair Value Measurement. This statement defines fair value, establishes a framework for measuring fair value, and expands the disclosures about fair value measurements. ASC 820 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in a principal or most advantageous market. Fair value is a market-based measurement that is determined based on inputs, which refer broadly to assumptions that market participants use in pricing assets or liabilities. These inputs can be readily observable, market corroborated, or unobservable. ASC 820 established a fair value hierarchy, which prioritizes the inputs to valuation techniques used to measure fair value in three broad levels. The standard requires that assets and liabilities be classified in their entirety based on the level of input that is significant to the fair value measurement. Assessing the significance of a particular input may require judgment considering factors specific to the asset or liability and may affect the valuation of the asset or liability and their placement within the fair value hierarchy. The Foundation classifies fair value balances based on the fair value hierarchy defined by ASC 820, as follows:

Level 1 - Valuations are based on unadjusted quoted prices in active markets for identical assets or liabilities. An active market for the asset or liability is a market in which transactions for the asset or liability occur with sufficient frequency and volume to provide pricing information on an ongoing basis. Valuation adjustments and block discounts are not applied to Level 1 instruments.

Level 2 - Valuations are based on quoted prices in markets that are not active or for which all significant inputs are observable, either directly or indirectly.

Level 3 - Valuations are based on inputs that are unobservable and significant to the overall fair value measurement.

Notes to Financial Statements

Income from investments, including unrealized gains and losses, are reported in the statements of activities as change in net assets without donor restrictions, unless the use of the income is limited by donor-imposed restrictions.

Securities Transactions and Portfolio Valuations

Securities transactions and related income and expenses are recorded on a trade-date basis. The Foundation's investments in securities are valued at market value on the financial statement date based upon the last reported sales price on the largest recognized exchange on which they are traded or, if no trading took place on that date, at the last quoted "bid" price for investments in securities owned. The resulting unrealized gains and losses are included in the statements of activities.

Program-Related Investment

The Foundation entered into loan agreements that qualify as program-related investments (PRIs), in accordance with Section 4944 of the Internal Revenue Code (the IRC). The Foundation is permitted to make investments that are related to its philanthropic programs. These investments are in the form of loans and equities and are anticipated to have a less-than-market-return. In the year of the PRI investment, the Foundation receives a credit toward its 5% distribution requirement imposed by the IRC on private foundations. The return of principal from a PRI increases the Foundation's 5% distribution requirement in the year of receipt. These investments are recorded at cost net of appropriate reserves for collectability. Outstanding PRIs totaled \$10,227,601 and \$7,905,997 as of June 30, 2021 and 2020, respectively. The agreed-upon rate of interest from the PRIs ranges from 0.5% to 6% per annum. PRI reserves are based on a review of borrowers' credit risks, including consideration of the financial strength of borrowers, the nature of the investments, payment history, and current economic conditions. The Foundation has reserved \$0, as of June 30, 2021 and 2020. There were no loans more than 30 days past due, as of June 30, 2021 and 2020. The Foundation had open PRI commitments of \$3,889,851 and \$4,735,748, as of June 30, 2021 and 2020, respectively.

Fixed Assets

Fixed assets are stated at cost or at their fair market value at the time of their purchase or donation. The Foundation capitalizes additions in excess of \$5,000 that are purchased or donated if the estimated useful life is greater than one year. Depreciation is computed over the estimated useful lives of the assets by the straight-line method for financial reporting, as follows:

Furniture, fixtures, and equipment	5 years
Leasehold improvements	16 years or life of lease,
	whichever is shorter

Impairment of Fixed Assets

The Foundation follows the provisions of ASC 360-10-35, Accounting for the Impairment or Disposal of Long-Lived Assets, which requires the Foundation to review long-lived assets, including property and equipment and intangible assets, for impairment whenever events or changes in business circumstances indicate that the carrying amount of an asset may not be fully recoverable. An impairment loss would be recognized when the estimated future cash flows from the use of the

Notes to Financial Statements

asset are less than the carrying amount of that asset. For the years ended June 30, 2021 and 2020, there have been no such losses.

Deferred Rent

Rent expense is being recognized on a straight-line basis over the lives of the leases. The difference between rent expense recognized and rental payments, as stipulated in the respective leases, is included in accrued expenses payable in the statements of financial position. In addition, deferred rent also includes the landlord incentives for free, which are being amortized over the lives of the leases.

Grant Expense

Grant expenses are recognized in the period the grant is approved, provided the grant is not subject to significant future conditions. Grants payable that are expected to be paid in the future years are recorded at the present value of expected future payments. Grants payable were discounted at 0.07% and 0.16% for the years ended June 30, 2021 and 2020, respectively, which reflects the year-end risk-free rate for the year the grants were made.

Income Taxes

The Foundation is exempt from federal income taxes under Section 501(c)(3) of the IRC, except for any income derived from unrelated business activity. No taxes were due on unrelated business income in 2021 and 2020. The Foundation has been classified as a "private foundation." Provisions have been made for federal excise tax on net investment income.

The IRC provides that each year the Foundation must make certain minimum qualifying distributions equal to approximately 5% of the average fair market value of its assets. The minimum distribution requirements for the fiscal years ended June 30, 2021 and 2020 have been satisfied.

Uncertainty in Income Taxes

Under ASC 740, an organization must recognize the financial statement effects of a tax position taken for tax return purposes when it is more likely than not that the position will not be sustained upon examination. The Foundation does not believe that there are any material uncertain tax positions and, accordingly, it has not recognized any liability for unrecognized tax benefits. The Foundation has filed Internal Revenue Service Form 990 tax returns, as required, and all other applicable returns in jurisdictions where it is required. The Foundation is subject to routine audit by a taxing authority. As of June 30, 2021, the Foundation was not subject to any examination by a taxing authority.

Functional Allocation of Expenses

The majority of expenses can generally be directly identified with the program or supporting services to which they relate. Other expenses have been allocated among program and supporting services classifications primarily on the basis of the employees' time allocations.

Notes to Financial Statements

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Concentration of Credit Risk

Financial instruments that potentially subject the Foundation to concentration of credit risk consist primarily of cash and cash equivalents in excess of Federal Deposit Insurance Corporation (FDIC) insurance limits. At various times during the year, the Foundation may have cash deposits at financial institutions in excess of FDIC insurance limits. These financial institutions have strong credit ratings and management believes that credit risk related to these accounts is minimal.

Recently Adopted Accounting Pronouncements

Revenue from Contracts with Customers (Topic 606)

In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers (Topic 606), requiring an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers. The updated standard will replace most existing revenue recognition guidance in U.S. GAAP when it becomes effective and permits the use of either a full retrospective or retrospective with cumulative effect transition method. In June 2020, the FASB issued ASU 2020-05, which defers the effective date of ASU 2014-09, making it effective for annual reporting periods beginning after December 15, 2019, and for interim reporting periods within annual reporting periods beginning after December 15, 2020. The guidance is effective for the Foundation's fiscal year 2021, and the adoption of this update did not have a material impact on the Foundation's financial statements.

Fair Value Measurement

ASU 2018-13, Disclosure Framework - Changes to the Disclosure Requirements for Fair Value Measurement, was issued as part of the FASB disclosure framework project to improve the effectiveness of disclosures about fair value measurements required under ASC 820. The ASU amends the disclosure requirements for recurring and nonrecurring fair value measurements by removing, modifying, and adding certain disclosures. The ASU is effective for fiscal years beginning after December 15, 2019. Early adoption of the ASU is permitted. An entity is permitted to early-adopt all disclosure requirements in the ASU or early-adopt only the removed and modified disclosure requirements, while delaying adoption of the additional disclosures until their effective date. The guidance is effective for the Foundation's fiscal year 2021, and the adoption of this update did not have a material impact on the Foundation's financial statements.

Accounting Pronouncements Issued but Not Yet Adopted

Leases (Topic 842)

In February 2016, the FASB issued ASU 2016-02, *Leases (Topic 842)*, to increase transparency and comparability among organizations by recognizing lease assets and lease liabilities on the statements of financial position and disclosing key information about leasing arrangements for

Notes to Financial Statements

lessees and lessors. The new standard applies a right-of-use (ROU) model that requires, for all leases with a lease term of more than 12 months, an asset representing its right to use the underlying asset for the lease term and a liability to make lease payments to be recorded. The FASB also issued ASU 2020-05, which deferred the effective date for the Foundation until annual periods beginning after December 15, 2021. Management is currently evaluating the impact of this ASU on its financial statements.

3. Liquidity and Availability of Resources

The following table reflects the Foundation's financial assets, reduced by amounts not available for general operating expenses within one year:

June 30, 2021	
Cash and cash equivalents	\$ 202,516
Investments, at fair value	1,308,145,212
Accrued interest, dividends, and other assets	147,848
Prepaid excise tax	38,275
Less:	1,308,533,851
Amounts unavailable for general expenditures within one year, due to:	
Held for specific purpose	1,245,468,954
Total Financial Assets Available to Meet Cash Needs	
for General Expenditures Within One Year	\$ 63,064,897

As part of the Foundation's liquidity management, it has a policy to structure its financial assets to be available as its general expenditures, liabilities, and other obligations become due. Annual withdrawals from investments are determined based on budgetary needs. The Board of Directors limits spending to 5% of the Foundation's investments, calculated as an average fair market value over the proceeding 12 quarters. This amount for fiscal year 2022 was \$51,064,897. For certain special circumstances, the Board of Directors approves additional spending as was the case for the fiscal period of 2022. Additional spending of \$12,000,000 was approved by the Board of Directors for its Racial Justice Initiative. The Board of Directors' approved limit on spending for fiscal period 2022 is \$63,064,897.

4. Investments, at Fair Value

The Foundation's assets recorded at fair value have been categorized based upon a fair value hierarchy, in accordance with ASC 820. See Note 2 for a discussion of the Foundation's policies regarding this hierarchy.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2021 and 2020.

Mutual Funds - These assets are valued at unadjusted quoted market prices, which represent the net asset value (NAV) of shares owned by the Foundation at year-end.

Equities - These assets are valued at the closing price reported on the active market in which the individual security is traded.

Notes to Financial Statements

U.S. Treasury Bills - These assets are valued at quoted market prices in an active market in which the debt security is traded.

Short-Term Investment Fund - Fair value is based upon the NAV, as a practical expedient, of the shares held by the Foundation. NAV is based upon the fair value of the underlying investments.

Collective Investment Funds - Fair value is based on the NAV, as a practical expedient, reported by the fund, as determined by the sponsor of the funds.

Limited Partnerships and Hedge Funds - These assets are valued at the NAV, as a practical expedient, or its equivalent of the interest owned by the Foundation at year-end. NAV or its equivalent is based on the fair value of the limited partnerships' and hedge funds' underlying investment and other assets, less any liabilities.

The following tables present the level within the fair value hierarchy at which the Foundation's assets are measured on a recurring basis:

June 30, 2021

	Quoted Prices ctive Markets (Level 1)	Other Observable Inputs (Level 2)	Unobservable Inputs (Level 3)		Total
Mutual funds: Global ex-U.S. Equity Emerging Markets Global Equity	\$ 30,388,309 11,992,311 11,432,553	\$ - - -	\$ - - -	\$	30,388,309 11,992,311 11,432,553

^{*} Certain investments that are measured at fair value using the NAV per share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in these tables are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of financial position.

There were no transfers between levels during the years ended June 30, 2021 and 2020. The Foundation had no assets that were measured at fair value on a non-recurring basis during the years ended June 30, 2021 and 2020.

The remainder of this page intentionally left blank.

Notes to Financial Statements

In accordance with ASU 2009-12, *Investment in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*, the Foundation expanded its disclosures to include the category, fair value, redemption frequency, and redemption notice period for those assets whose fair value is estimated using the NAV per share or its equivalent for which the fair value is not readily determinable:

		Fair '	Value		-	Unfunded	Redemption	Redemption
Investments		2021 2020			Commitments	Frequency	Notice Period

⁽a) Investments in Limited Partnerships and Hedge Funds

The investment entities, which comprise a portion of the Foundation's investments, invest in various domestic and international types of securities and derivative financial instruments.

Redemptions of the Foundation's investments in these investment entities vary, but are primarily available at month-end, quarter-end, or year-end with appropriate notice. Management fees and incentive fees are charged by these investment entities at an annual rate ranging from .5% to 2% plus an incentive allocation, usually 20% of profits. These fees are included in the equity in net income of investments in investment partnerships and investment companies in the accompanying statements of activities.

Risks and Uncertainties

Investments

In the normal course of business, the Foundation enters into transactions in various financial instruments with off-balance sheet risk. Market risk represents the potential loss that can be caused by a change in the fair value of the financial instrument. Liquidity risk represents the possibility that the Foundation may not be able to rapidly adjust the size of its positions in times of high volatility and financial stress at a reasonable price. The Foundation is subject to credit risk if the investment managers are unable to repay balances due or deliver securities in their custody.

COVID-19 and CARES Act

On January 30, 2020, the World Health Organization (WHO) announced a global health emergency because of a new strain of coronavirus originating in Wuhan, China (the COVID-19 outbreak) and the risks to the international community as the virus spreads globally beyond its point of origin. In

Notes to Financial Statements

March 2020, the WHO classified the COVID-19 outbreak as a pandemic, based on the rapid increase in exposure globally.

The Foundation's operations are heavily dependent on investment returns. The values of Surdna's investments have and will fluctuate in response to changing market conditions; the amount of losses that will be recognized in subsequent periods, if any, cannot be determined. The value of Surdna's investments has a direct impact on its grant-making activities and operations. As a result, fluctuations in the market value of investments may impact Surdna's grant making and operations. However, the actual impact, if any, on future grant making and operations cannot be determined at this time. Surdna has incurred, and it is expected to incur for the foreseeable future, incremental and other COVID-19 pandemic-related expenses.

The full impact of the COVID-19 outbreak continues to evolve as of the date of this report. As such, it is uncertain as to the full impact that the pandemic will have on Surdna's financial condition, liquidity, and future results of operations. Management is actively monitoring the global situation on its financial condition, liquidity, operations, suppliers, industry, and workforce. The rapid development and fluidity of this situation precludes any prediction as to the ultimate material adverse impact of the COVID-19 pandemic. Nevertheless, the COVID-19 pandemic presents material uncertainty and risk with respect to Surdna, its performance, and its financial results.

Although Surdna cannot estimate the length or gravity of the impact of the COVID-19 outbreak at this time, it may have an adverse effect on Surdna's results of future operations, financial position, and liquidity in fiscal year 2021.

On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security Act (the CARES Act) was enacted. The CARES Act contains measures designed to bring some economic and fiscal relief to companies, small businesses, and individuals facing financial difficulties due to the COVID-19 crisis. The Foundation has not applied for and does not expect to apply for any of the CARES Act funding or benefits.

Derivative Contracts

The Foundation invests in fully collateralized exchange-traded futures contracts to equitize cash balances held in the investment portfolio.

Upon entering into an exchange traded futures contract, the Foundation is required to pledge to a broker an amount of cash equal to a certain percentage of the contract amount (initial margin deposit). Subsequent payments, known as "variation margin," are made or received by the Foundation each day, depending on the daily fluctuations in the fair value of the underlying futures contract.

As of June 30, 2021 and 2020, the Foundation's investment in futures contracts had a notional value of \$21,312,033 and \$45,040,255, respectively.

Offsetting of Assets and Liabilities

The Foundation's exchange-traded futures contracts are subject to collateral agreements with its counterparties. These agreements generally provide the Foundation with a right of offset under master netting arrangements, including in the event of default or bankruptcy of either party to the transactions.

Notes to Financial Statements

As of June 30, 2021 and 2020, the total gross exposures of the Foundation's future contracts at fair value amount to \$0 for both years. The Foundation has pledged, as collateral, financial instruments in the amounts of \$346,000 and \$1,300,000 for all derivative assets, providing an overall positive net exposure as of June 30, 2021 and 2020, respectively.

5. Fixed Assets, Net

Major classes of fixed assets, net, consist of the following:

June 30,	2021	2020
Furniture and fixtures	\$ 419,237	\$ 397,796
Equipment	65,860	65,860
Leasehold improvements	2,243,364	2,243,364
Artwork/photographs	84,400	84,400
Total Fixed Assets	2,812,861	2,791,420
Less: accumulated depreciation and amortization	(917,465)	(685,894)
Fixed Assets, Net	\$ 1,895,396	\$ 2,105,526

The depreciation and amortization expense for the years ended June 30, 2021 and 2020 totaled \$231,571 and \$225,641, respectively.

6. Grants Payable, Net

Of the grants approved by the Board of Directors through June 30, 2021 and 2020, \$38,745,000 and \$40,882,500, respectively, are payable to grantees and are subject to satisfaction of certain conditions by the grantees before payment is made. Any noncompliance with the grant requirements will result in the return of funds by the grantees.

Future grant payments consist of the following:

2022 2023	\$ 29,285,000 9,460,000
	38,745,000
Discount at 0.07%	(6,617)
Grants Payable, Net	\$ 38,738,383

7. Federal Excise Tax

The Foundation estimated federal excise tax expense as \$1,091,156 and \$389,570 for the years ended June 30, 2021 and 2020, respectively. The Foundation records an adjustment to federal excise tax expense to reflect the difference between the estimated payment and the amount due on the prior years' returns. This adjustment was \$83,317 and \$78,114 for the years ended June 30, 2021 and 2020, respectively. The Foundation recorded prepaid excise tax of \$38,275 and \$1,046,114, respectively, as of June 30, 2021 and 2020 related to prepaid tax amounts, which are recoverable on future returns.

Notes to Financial Statements

8. Retirement Plan

The Foundation has a defined contribution retirement plan for substantially all employees. Contributions under the retirement plan represent safe harbor and profit-sharing contributions, which are calculated as 3% and 9%, respectively, of the participant's salary. Retirement expense for the years ended June 30, 2021 and 2020 was \$492,110 and \$467,218, respectively.

9. Commitments

On April 26, 2017, the Foundation entered into a noncancelable operating lease agreement for office space. The term of the lease is 16 years and began on April 1, 2017 and requires minimum annual rental payments of \$859,587 as of June 30, 2021, with escalations through the lease termination in April 2033. In addition, the lease requires payment of escalations in utilities, real estate taxes and other expenses.

Minimum lease commitments are summarized as follows:

Fiscal Year	Net	Leases
2022	\$ 8	359,587
2023	8	370,121
2024	Ç	22,793
2025	Ç	922,793
2026	Ç	922,793
Thereafter	6,6	521,777
	\$ 11,1	119,864

Rent expense, including lease payments, utility escalations, and other charges, for the years ended June 30, 2021 and 2020 was \$902,578 and \$916,049, respectively.

The Foundation has agreements with various investment advisory firms. Under the agreements, the investment managers are authorized to trade the Foundation's portfolio at their discretion within investment guidelines established by the Foundation. Fees for services are based on the market value of portfolio assets under management. Fees incurred for the years ended June 30, 2021 and 2020 were \$3,238,768 and \$3,203,480, respectively.

As of June 30, 2021, the Foundation is a limited partner under the terms of various partnership agreements. Under the agreements with various investment management firms, the Foundation was committed to contribute capital of approximately \$198,300,000 of additional investment to certain limited partnerships based on the term of the investment period, as defined in each partnership agreement. While not every partnership draws down all committed capital, and although in the same period some partnerships may return income distributions and capital, the Foundation estimates it may need to fund additional investments totaling approximately \$8,500,000 in 2021.

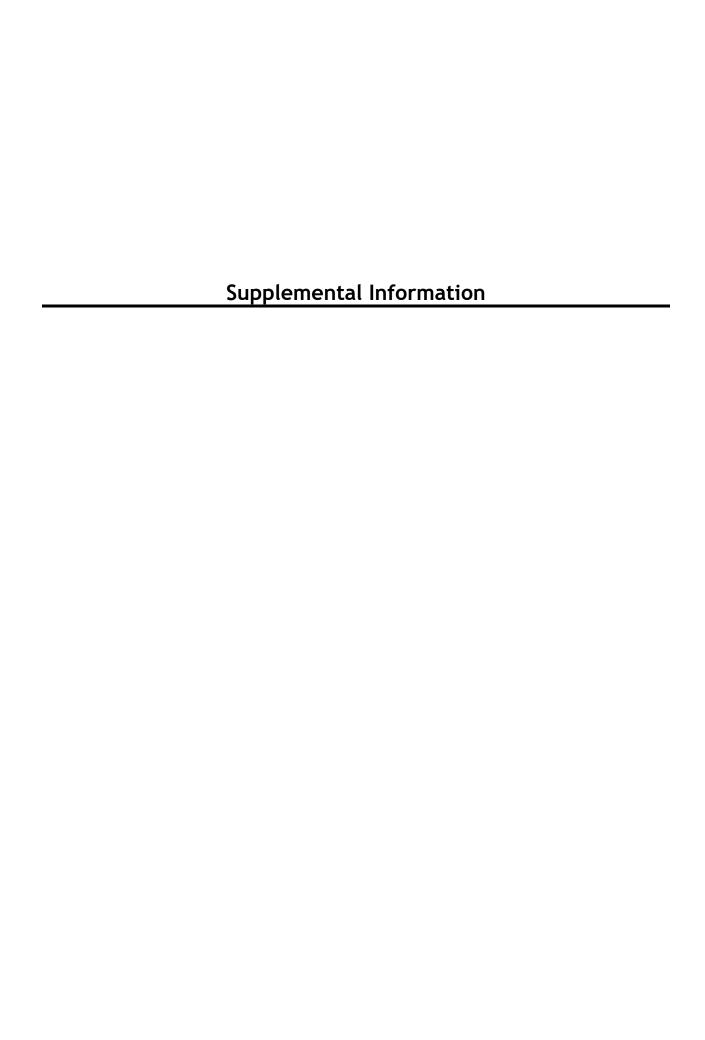

Notes to Financial Statements

10. Related Parties

Some of the Foundation's directors also serve as directors on the boards of the John E. Andrus Memorial, Inc., Julia Dyckman Andrus Memorial, Inc. and the Helen A. Benedict Foundation, Inc. Transactions between the Foundation and John E. Andrus Memorial, Inc. and Julia Dyckman Andrus Memorial, Inc. consist of paid grants totaling \$2,818,707 and \$2,817,900 for the years ended June 30, 2021 and 2020, respectively.

11. Subsequent Events

The Foundation has evaluated subsequent events through April 26, 2022, which is the date these financial statements were available to be issued, and there were no other subsequent events requiring adjustment to the financial statements or disclosures as stated therein.
