Independent Auditor's Report

The Board of Directors Surdna Foundation, Inc. New York, New York

Opinion

We have audited the financial statements of Surdna Foundation, Inc. (the Foundation), which comprise the statements of financial position as of June 30, 2024 and 2023, and the related statements of activities, functional expenses, and cash flows for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Foundation as of June 30, 2024 and 2023, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Foundation and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Foundation's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit
 procedures that are appropriate in the circumstances, but not for the purpose of
 expressing an opinion on the effectiveness of the Foundation's internal control.
 Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Foundation's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter

Our audits of the financial statements were conducted for the purpose of forming an opinion on those statements as a whole. The accompanying supplemental information presented on pages 26 through 46 of this report is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The supplemental information has been subjected to the auditing procedures applied in the audits of the financial statements, and to certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and to other additional procedures, in accordance with GAAS. In our opinion, the supplemental information is fairly stated, in all material respects, in relation to the financial statements as a whole.

BDO USA, P.C.

Notes to Financial Statements

1. Description of the Organization

The Surdna Foundation, Inc. (the Foundation) is a family foundation established in 1917 by John E. Andrus and incorporated under the Not-for-Profit Corporation Law of the State of New York. The Foundation seeks to foster just and sustainable communities in the United States—communities guided by principles of social justice and distinguished by healthy environments, strong local economies, and thriving cultures.

Location:

Thorpe Director Miguel Santana Director

2. Summary of Significant Accounting Policies

Director

Basis of Presentation

Ommed Sathe

The financial statements of the Foundation have been prepared on the accrual basis of accounting, in accordance with accounting principles generally accepted in the United States of America (GAAP). In the statements of financial position, assets are presented in order of liquidity or conversion to cash and liabilities are reflected in order of their maturity resulting in the use of cash, respectively.

Financial Statement Presentation

The classification of the Foundation's net assets and its support, revenue, and expenses is based on the existence or absence of donor-imposed restrictions. It requires that the amounts for each of the two classes of net assets—net assets without donor restrictions and net assets with donor restrictions—be displayed in the statements of financial position and that the amounts of change in each of those classes of net assets be displayed in the statements of activities.

These classes are defined as follows:

Net Assets Without Donor Restrictions - This class consists of the part of net assets that is not subject to donor-imposed stipulations and is, therefore, available for the general operations of the

Notes to Financial Statements

Foundation. The net assets without donor restrictions are used to account for all resources over which the Board of Directors has discretionary control.

Net Assets with Donor Restrictions - Net assets include resources for use limited by donor-imposed time and/or purpose restrictions.

Revenues are reported as increases in net assets without donor restrictions unless use of the related assets is limited by donor-imposed restrictions. Expenses are reported as decreases in net assets without donor restrictions. Gains and losses on investments and other assets or liabilities are reported as increases or decreases in net assets without donor restrictions unless their use is restricted by explicit donor stipulation or by law. Expirations of donor restrictions on the net assets (i.e., the donor-stipulated purpose has been fulfilled and/or the stipulated time period has elapsed) are reported as reclassifications between the applicable classes of net assets.

For the years ended June 30, 2024 and 2023, all net assets are without donor restrictions.

Cash and Cash Equivalents

The Foundation considers all cash and highly liquid debt instruments purchased with an original maturity of three months or less at time of purchase to be cash equivalents.

Investments at Fair Value

Financial instruments are carried at fair value. The Foundation adopted Accounting Standards Codification (ASC) 820, Fair Value Measurement. This statement defines fair value, establishes a framework for measuring fair value, and expands the disclosures about fair value measurements. ASC 820 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in a principal or most advantageous market. Fair value is a market-based measurement that is determined based on inputs, which refer broadly to assumptions that market participants use in pricing assets or liabilities. These inputs can be readily observable, market corroborated, or unobservable. ASC 820 established a fair value hierarchy, which prioritizes the inputs to valuation techniques used to measure fair value in three broad levels. The standard requires that assets and liabilities be classified in their entirety based on the level of input that is significant to the fair value measurement. Assessing the significance of a particular input may require judgment considering factors specific to the asset or liability and may affect the valuation of the asset or liability and their placement within the fair value hierarchy. The Foundation classifies fair value balances based on the fair value hierarchy defined by ASC 820, as follows:

Level 1 - Valuations are based on unadjusted quoted prices in active markets for identical assets or liabilities. An active market for the asset or liability is a market in which transactions for the asset or liability occur with sufficient frequency and volume to provide pricing information on an ongoing basis. Valuation adjustments and block discounts are not applied to Level 1 instruments.

Level 2 - Valuations are based on quoted prices in markets that are not active or for which all significant inputs are observable, either directly or indirectly.

Level 3 - Valuations are based on inputs that are unobservable and significant to the overall fair value measurement.

Notes to Financial Statements

Income from investments, including unrealized gains and losses, is reported in the statements of activities as change in net assets without donor restrictions, unless the use of the income is limited by donor-imposed restrictions.

Securities Transactions and Portfolio Valuations

Securities transactions and related income and expenses are recorded on a trade-date basis. The Foundation's investments in securities are valued at market value on the financial statement date based upon the last reported sales price on the largest recognized exchange on which they are traded or, if no trading took place on that date, at the last quoted bid price for investments in securities owned. The resulting unrealized gains and losses are included in the statements of activities.

Program-Related Investment

The Foundation entered into loan agreements that qualify as program-related investments (PRIs), in accordance with Section 4944 of the Internal Revenue Code (IRC). The Foundation is permitted to make investments that are related to its philanthropic programs. These investments are in the form of loans and equities and are anticipated to have a less-than-market return. In the year of the PRI investment, the Foundation receives a credit toward its 5% distribution requirement imposed by the IRC on private foundations. The return of principal from a PRI increases the Foundation's 5% distribution requirement in the year of receipt. These investments are recorded at cost net of appropriate reserves for collectability. Outstanding PRIs totaled \$13,246,180 and \$12,524,584 as of June 30, 2024 and 2023, respectively. The agreed-upon rate of interest from the PRIs ranges from 0.5% to 6.0% per annum. PRI reserves are based on a review of borrowers' credit risks, including consideration of the financial strength of borrowers, the nature of the investments, payment history, and current economic conditions. The Foundation has reserved \$0 as of June 30, 2024 and 2023. There were no loans more than 30 days past due as of June 30, 2024 and 2023. The Foundation had open PRI commitments of \$5,734,915 and \$7,070,765 as of June 30, 2024 and 2023, respectively.

Fixed Assets

Fixed assets are stated at cost or at their fair market value at the time of their purchase or donation. The Foundation capitalizes additions in excess of \$5,000 that are purchased or donated if the estimated useful life is greater than one year. Depreciation is computed over the estimated useful lives of the assets by the straight-line method for financial reporting, as follows:

Asset Category	Years
Furniture, fixtures, and equipment	5
Leasehold improvements	16 or life of lease, whichever is shorter
Artwork/photographs	Indefinite life

Impairment of Fixed Assets

The Foundation follows the provisions of ASC 360-10-35, Accounting for the Impairment or Disposal of Long-Lived Assets, which requires the Foundation to review long-lived assets, including property and equipment and intangible assets, for impairment whenever events or changes in business circumstances indicate that the carrying amount of an asset may not be fully recoverable. An impairment loss would be recognized when the estimated future cash flows from the use of the

Notes to Financial Statements

asset are less than the carrying amount of that asset. For the years ended June 30, 2024 and 2023, there have been no such losses.

Grant Expense

Grant expenses are recognized in the period the grant is approved, provided the grant is not subject to significant future conditions. Grants payable that are expected to be paid in the future years are recorded at the present value of expected future payments. Grants payable were discounted at 5.09% and 5.40% for the years ended June 30, 2024 and 2023, respectively, which reflects the year-end risk-free rate for the year the grants were made.

Income Taxes

The Foundation is exempt from federal income taxes under Section 501(c)(3) of the IRC, except for any income derived from unrelated business activity. No taxes were due on unrelated business income in 2024 and 2023. The Foundation has been classified as a "private foundation." Provisions have been made for federal excise tax on net investment income.

The IRC provides that each year the Foundation must make certain minimum qualifying distributions equal to approximately 5% of the average fair market value of its assets. The minimum distribution requirements for the fiscal years ended June 30, 2024 and 2023 have been satisfied.

Uncertainty in Income Taxes

Under ASC 740, an organization must recognize the financial statement effects of a tax position taken for tax return purposes when it is more likely than not that the position will not be sustained upon examination. The Foundation does not believe that there are any material uncertain tax positions and, accordingly, it has not recognized any liability for unrecognized tax benefits. The Foundation has filed Internal Revenue Service Form 990, tax returns, as required, and all other applicable returns in jurisdictions where it is required. The Foundation is subject to routine audit by a taxing authority. As of June 30, 2024, the Foundation was not subject to any examination by a taxing authority.

Functional Allocation of Expenses

The majority of expenses can generally be directly identified with the program or supporting services to which they relate. Other expenses have been allocated among program and supporting services classifications primarily on the basis of the employees' time allocations.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Concentration of Credit Risk

Financial instruments that potentially subject the Foundation to concentration of credit risk consist primarily of cash and cash equivalents in excess of Federal Deposit Insurance Corporation (FDIC)

Notes to Financial Statements

insurance limits. At various times during the year, the Foundation may have cash deposits at financial institutions in excess of FDIC insurance limits. These financial institutions have strong credit ratings and management believes that credit risk related to these accounts is minimal.

Recently Adopted Accounting Pronouncements

Financial Instruments - Credit Losses: Measurement of Credit Losses on Financial Instruments

In June 2016, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2016-13, Financial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments, which creates a new credit impairment standard for financial assets measured at amortized cost and available-for-sale debt securities. The ASU requires financial assets measured at amortized cost (including loans, trade receivables, and held-to-maturity debt securities) to be presented at the net amount expected to be collected, through an allowance for credit losses that are expected to occur over the remaining life of the asset, rather than incurred losses. The ASU requires that credit losses on available-for-sale debt securities be presented as an allowance rather than as a direct write-down. The measurement of credit losses for newly recognized financial assets (other than certain purchased assets) and subsequent changes in the allowance for credit losses are recorded in the statements of income as the amounts expected to be collected change. The ASU is effective for fiscal years beginning after December 15, 2022. The adoption of this ASU did not have a material impact on the financial statements.

3. Liquidity and Availability of Resources

The following table reflects the Foundation's financial assets, reduced by amounts not available for general operating expenses within one year:

June 30, 2024	
Cash and cash equivalents	\$ 10,771,287
Investments, at fair value	1,130,124,914
Accrued interest, dividends, and other assets	1,461,811
Less:	1,142,358,012
Amounts unavailable for general expenditures within one year, due to: Held for specific purpose	(1,082,111,091)
Total Financial Assets Available to Meet Cash Needs for General Expenditures Within One Year	\$ 60,246,921

As part of the Foundation's liquidity management, it has a policy to structure its financial assets to be available as its general expenditures, liabilities, and other obligations become due. Annual withdrawals from investments are determined based on budgetary needs. The Board of Directors limits spending to 5% of the Foundation's investments, calculated as an average fair market value over the preceding 12 quarters. This amount for fiscal year 2025 was \$60,246,921 which was approved by the Board of Directors.

Notes to Financial Statements

4. Investments, at Fair Value

The Foundation's assets recorded at fair value have been categorized based upon a fair value hierarchy, in accordance with ASC 820. See Note 2 for a discussion of the Foundation's policies regarding this hierarchy.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2024 and 2023.

Mutual Funds - Mutual funds are valued at unadjusted quoted market prices, which represent the net asset value (NAV) of shares owned by the Foundation at year-end.

Equities - Equities are valued at the closing price reported on the active market in which the individual security is traded.

Short-Term Investment Fund - For the short-term investment fund, fair value is based upon the NAV, as a practical expedient, of the shares held by the Foundation. NAV is based upon the fair value of the underlying investments.

Collective Investment Funds - For the collective investment funds, fair value is based on the NAV, as a practical expedient, reported by the fund, as determined by the sponsor of the funds.

Limited Partnerships and Hedge Funds - Limited partnerships and hedge funds are valued at the NAV, as a practical expedient, or its equivalent of the interest owned by the Foundation at year end. NAV or its equivalent is based on the fair value of the limited partnerships' and hedge funds' underlying investment and other assets, less any liabilities.

The remainder of this page intentionally left blank.

Notes to Financial Statements

The following tables present the level, within the fair value hierarchy, at which the Foundation's assets are measured on a recurring basis:

June 30, 2024

	-	oted Prices in ctive Markets (Level 1)	Other Observable Inputs (Level 2)	Ur	nobservable Inputs (Level 3)		Total

There were no transfers between levels during the years ended June 30, 2024 and 2023. The Foundation had no assets that were measured at fair value on a non-recurring basis during the years ended June 30, 2024 and 2023.

The remainder of this page intentionally left blank.

Notes to Financial Statements

In accordance with ASU 2009-12, *Investment in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*, the Foundation expanded its disclosures to include the category, fair value, redemption frequency, and redemption notice period for those assets whose fair value is estimated using the NAV per share or its equivalent for which the fair value is not readily determinable:

June 30,

_		11.6.1.1	D. I	D. J

	\$1,102,931,034	\$ 1,056,431,475	\$	142,791,534		

⁽a) Investments in limited partnerships and hedge funds.

The investment entities, which comprise a portion of the Foundation's investments, invest in various domestic and international types of securities and derivative financial instruments.

Redemptions of the Foundation's investments in these investment entities vary, but are primarily available at month-end, quarter-end, or year-end with appropriate notice. Management fees and incentive fees are charged by these investment entities at an annual rate ranging from 0.5% to 2% plus an incentive allocation, usually 20% of profits. These fees are included in the equity in net income of investments in investment partnerships and investment companies in the accompanying statements of activities.

Risks and Uncertainties

Investments

In the normal course of business, the Foundation enters into transactions in various financial instruments with off-balance-sheet risk. Market risk represents the potential loss that can be caused by a change in the fair value of the financial instrument. Liquidity risk represents the possibility that the Foundation may not be able to rapidly adjust the size of its positions in times of high volatility and financial stress at a reasonable price. The Foundation is subject to credit risk if the investment managers are unable to repay balances due or deliver securities in their custody.

Derivative Contracts

The Foundation invests in fully collateralized exchange-traded futures contracts to equitize cash balances held in the investment portfolio.

Notes to Financial Statements

Upon entering into an exchange-traded futures contract, the Foundation is required to pledge to a broker an amount of cash equal to a certain percentage of the contract amount (initial margin deposit). Subsequent payments, known as variation margin, are made or received by the Foundation each day, depending on the daily fluctuations in the fair value of the underlying futures contract.

As of June 30, 2024 and 2023, the Foundation's investment in futures contracts had a notional value of \$43,715,476 and \$80,850,286, respectively.

Offsetting of Assets and Liabilities

The Foundation's exchange-traded futures contracts are subject to collateral agreements with its counterparties. These agreements generally provide the Foundation with a right of offset under master netting arrangements, including in the event of default or bankruptcy of either party to the transactions.

As of June 30, 2024 and 2023, the total gross exposures of the Foundation's future contracts at fair value amount to \$0 for both years. The Foundation has pledged, as collateral, financial instruments in the amounts of \$790,000 and \$891,000 for all derivative assets, providing an overall positive net exposure as of June 30, 2024 and 2023, respectively.

5. Fixed Assets, Net

Major classes of fixed assets, net, consist of the following:

June 30,	2024	2023
Furniture and fixtures	\$ 419,237	\$ 419,237
Equipment	112,562	65,860
Leasehold improvements	2,322,793	2,243,364
Artwork/photographs	84,400	84,400
Total Fixed Assets	2,938,992	2,812,861
Less: accumulated depreciation and amortization	(1,493,558)	(1,339,505)
Fixed Assets, Net	\$ 1,445,434	\$ 1,473,356

The depreciation and amortization expense for the years ended June 30, 2024 and 2023 totaled \$154,053 and \$188,833, respectively.

6. Grants Payable, Net

Of the grants approved by the Board of Directors through June 30, 2024 and 2023, \$75,052,544 and \$73,668,000, respectively, are payable to grantees and are subject to satisfaction of certain conditions by the grantees before payment is made. Any noncompliance with the grant requirements will result in the return of funds by the grantees.

Notes to Financial Statements

Future grant payments consist of the following:

2025	\$ 35,817,044
2026	20,810,500
2027	9,850,000
2028	8,100,000
2029	475,000
Total	75,052,544
Discount at 5.09%	(6,628,233)
Grants Payable, Net	\$ 68,424,311

7. Federal Excise Tax

The Foundation estimated federal excise tax expense as \$585,136 and \$274,814 for the years ended June 30, 2024 and 2023, respectively. The Foundation records an adjustment to federal excise tax expense to reflect the difference between the estimated payment and the amount due on the prior years' returns. This adjustment was \$218,201 and \$(1,587,368) for the years ended June 30, 2024 and 2023, respectively. The Foundation recorded prepaid excise tax of \$0 and \$305,120, respectively, as of June 30, 2024 and 2023 related to prepaid tax amounts, which are recoverable on future returns.

8. Lease

The Foundation adopted ASU 2016-02, Accounting for Leases (Topic 842), effective July 1, 2022, using the transition method provided by ASU 2018-11, Leases (Topic 842): Targeted Improvements. Under this transition method, the Foundation applied the new requirements to only those leases that existed as of July 1, 2022, rather than at the earliest comparative period presented in the financial statements. Prior periods will be presented under the existing lease guidance. Upon transition, the Foundation applied the package of practical expedients permitted under the ASC 842 transition guidance. As a result, the Foundation did not reassess 1) whether expired or existing contracts contain leases under the new definition of a lease, including whether an existing or expired contract contains an embedded lease; 2) lease classification for expired or existing leases; and 3) any initial direct costs of existing leases. Additionally, the Foundation did not elect the hindsight practical expedient to determine the applicable term for leases within the Foundation's lease population. As a result of the adoption of ASC 842, the Foundation recorded ROU assets and lease liabilities of \$6,416,400 and \$7,343,178, respectively. The Foundation entered into a lease agreement for its New York, New York office as of April 26, 2017 through April 30, 2033, which is classified as an operating lease based on the terms of the agreement. Leases are classified as either finance or operating leases based on the underlying terms of the agreement and certain criteria, such as the term of the lease relative to the useful life of the asset and the total lease payments to be made as compared to the fair value of the asset, amongst other criteria. Finance leases result in an accounting treatment similar to an acquisition of the asset.

For leases with initial terms greater than a year (or initially, greater than one year remaining under the lease at the date of adoption of ASU 2016-02), the Foundation records the related ROU assets and liabilities at the present value of the lease payments to be paid over the life of the related lease. The Foundation's leases may include variable lease payments and renewal options. Variable lease payments are excluded from the amounts used to determine the ROU assets and liabilities

Notes to Financial Statements

unless the variable lease payments depend on an index or rate or are in substance, fixed payments. Lease payments related to periods subject to renewal options are also excluded from the amounts used to determine the ROU assets and liabilities unless the Foundation is reasonably certain to exercise the option to extend the lease. The present value of lease payments is calculated by utilizing the rate stated in the lease, when readily determinable. For leases for which this rate is not readily available, the Foundation has elected to use the risk-free rate using a period comparable with that of the lease term. The Foundation has made an accounting policy election not to separate lease components from non-lease components in contracts when determining its lease payments for all of its asset classes, as permitted by ASU 2016 02. As such, the Foundation accounts for the applicable non-lease components together with the related lease components when determining the ROU assets and liabilities.

The Foundation has made an accounting policy election not to record leases with an initial term of less than a year as ROU assets and liabilities.

The following tables summarize information related to the lease assets and liabilities:

June 30,	2024	2023
Lease costs: Operating lease cost: Amortization of ROU assets Interest on lease liabilities	\$ 666,971 222,457	\$ 700,473 241,627
Total Lease Cost	\$ 889,428	\$ 942,100
June 30,	2024	2023
ROU assets and liabilities: Operating lease ROU assets Operating lease liabilities	\$ 6,416,400 7,343,178	\$ 7,083,371 8,043,515
June 30,	2024	2023
Other information: Cash paid for amounts included in the measurement of lease liabilities: Operating cash flows from operating leases Weighted-average remaining lease term - operating leases Weighted-average discount rate - operating leases	\$ 922,793 8.83 years 2.88%	\$ 870,121 9.83 years 2.88%

For operating leases, ROU assets are recorded in operating lease assets, net, and lease liabilities are recorded in operating lease liabilities in the accompanying statements of financial position. Amortization expense is recorded as a component of rent expense in the statements of functional expenses.

Notes to Financial Statements

The following is a schedule of future minimum lease payments, including interest, under the term of the leases, together with the present value of the net minimum lease payments, as of June 30, 2024:

Year ending June 30,	
2025	\$ 922,793
2026	922,793
2027	922,793
2028	933,327
2029	985,998
Thereafter	3,779,659
Total Minimum Lease Payments	8,467,363
Less: amounts representing interest	(1,124,185)
Present Value of Net Minimum Lease Payments	7,343,178
Less: current portion	(720,774)
	\$ 6,622,404

9. Retirement Plan

The Foundation has a defined contribution retirement plan for substantially all employees. Contributions under the retirement plan represent safe harbor and profit-sharing contributions, which are calculated as 3% and 9%, respectively, of the participant's salary. Retirement expense for the years ended June 30, 2024 and 2023 was \$619,000 and \$604,644, respectively, which is recorded as a component of fringe benefit in statement of functional expenses.

10. Commitments

The Foundation has agreements with various investment advisory firms. Under the agreements, the investment managers are authorized to trade the Foundation's portfolio at their discretion within investment guidelines established by the Foundation. Fees for services are based on the market value of portfolio assets under management. Fees incurred for the years ended June 30, 2024 and 2023 were \$2,802,460 and \$2,799,811, respectively.

As of June 30, 2024, the Foundation is a limited partner under the terms of various partnership agreements. Under the agreements with various investment management firms, the Foundation was committed to contribute capital of approximately \$142,792,000 of additional investment to certain limited partnerships based on the term of the investment period, as defined in each partnership agreement. While not every partnership draws down all committed capital, and although in the same period some partnerships may return income distributions and capital, subsequent to June 30, 2024, the Foundation committed to contributing an additional \$5,000,000 to fund investments.

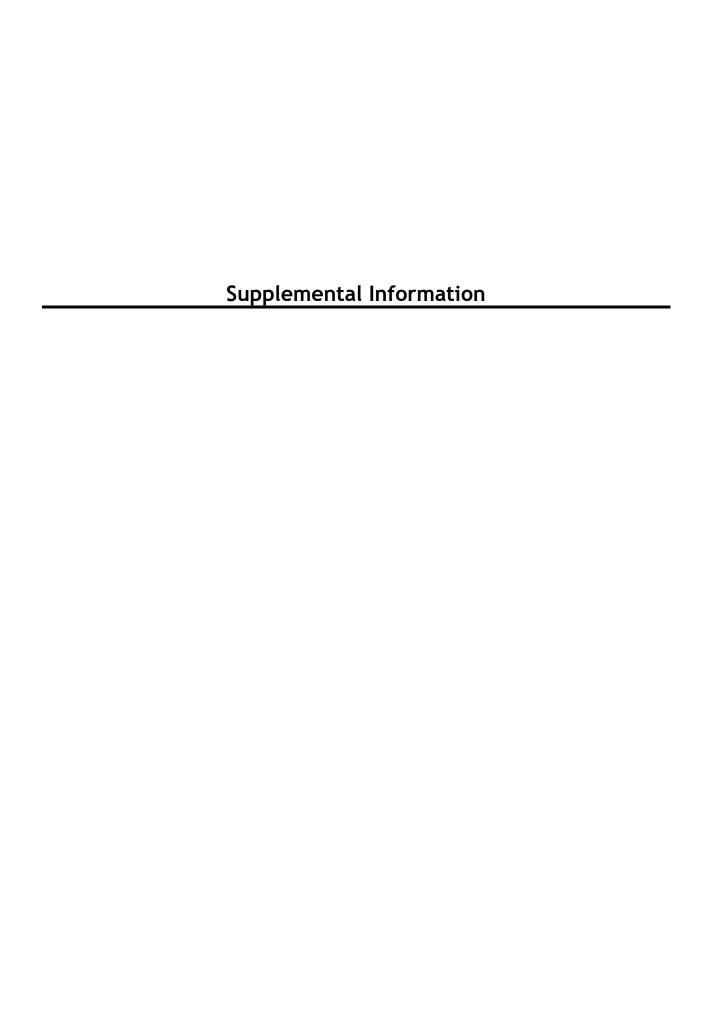

Notes to Financial Statements

11. Related Parties

Some of the Foundation's directors also serve as directors on the boards of the John E. Andrus Memorial, Inc.; Julia Dyckman Andrus Memorial, Inc.; and the Helen A. Benedict Foundation, Inc. Transactions between the Foundation and John E. Andrus Memorial, Inc. and Julia Dyckman Andrus Memorial, Inc. consist of paid grants totaling \$4,000,000 and \$4,002,000 for the years ended June 30, 2024 and 2023, respectively. As of June 30, 2024, the Foundation owed \$16,000,000 in grants payable to John E. Andrus Memorial, Inc. and Julia Dyckman Andrus Memorial, Inc.

12. Subsequent Events

The Foundation has evaluated subsequent events through May 14, 2025, which is the date these financial statements were available to be issued, and there were no other subsequent events requiring adjustment to the financial statements or disclosures as stated therein.
